KEY BENEFITS OF THE PLAN

Choose any one of the two maturity benefit options:

1. **Regular Income** – Beginning from the first payout date, as decided by you, we will start paying a regular income instalment at regular intervals during the payout period
2. **Regular Income plus Lumpsum** - In addition to the regular income instalment, we shall also pay a lumpsum payout with the last regular income instalment.

Choose the frequency to receive regular income:

You will have the flexibility to receive regular income instalment in the frequency you choose at policy inception. The Payout Frequency allowed are annual, semi-annual, quarterly and monthly.

In such an event your regular income instalment will proportionately reduce as explained in the Maturity Benefit section.
